The American Epilepsy Society is pleased to announce the 68th Annual Meeting being held in Seattle, WA, December 5 - 9, 2014. Nearly 5,000 of the world’s leading epilepsy professionals will join AES to learn about the most recent clinical and basic research, technology and treatment developments, and to exchange new ideas.

The largest meeting and exhibition in the world focused on epilepsy provides symposia, lectures, scientific exhibitions, skills workshops, special interest groups, and poster and platform presentations that identify new trends and cutting-edge research that will move the field of epilepsy forward for years to come.

The AES Annual Meeting brings together professionals from around the world who are involved in both scientific research and clinical care for people with epilepsy — neurologists, epileptologists, neurophysiologists, neuroscientists, neurosurgeons, internists, pediatricians, pharmacists, nurses, social workers, bioengineers and other professionals — from private practice, academia and government.

Important Dates
- May 12 – Hotel reservations open via the AES website
- July 31 – Registration opens via the AES website
